Dear parents and carers

Wet weather

I want to let you all know that we have put a procedure in place to ensure children can go straight indoors in the event of wet weather before school. This means children will not have to wait for the whole class before entering the classroom.

It would really help us if families arrive at the correct time for the year group and don't get to school too early. The gap between each year group allows us to ensure the children can use the toilets and handwashing facilities before the next group come in.

It's also really important that children do have a warm, waterproof coat for school every day.

In the event of wet weather at home time, we will do our best to get the children out promptly.

With sincere thanks for your support

Claire Bennett
Headteacher
